

Press kit: Libro lighting collection

Product

Name: Libro

Category: lighting collection

Material: metal, glass, electric components

Design: Peter Otto Vosding

Year: 2018

Looking for producer

Description:

All the lamps of the **Libro** collection have a simple folded metal body that looks like an **opened book**. Instead of pages, this „book“ contains a light sphere.

The lighting objects combine the basic forms **circle, rectangle and triangle** in a way that makes it possible to use the lamps in **different orientations** to create various lighting situations. The short version of the lamp can be used as a **table lamp** and as a **suspension lamp** that reveals its whole beauty in **clusters** of at least three pieces. A long version of the lamp with five light spheres is a perfect suspension lamp for dining tables but can be used as a floor lamp in a vertical orientation as well.
