

## Press kit: Mμ chair

### Product

**Name:** Mμ

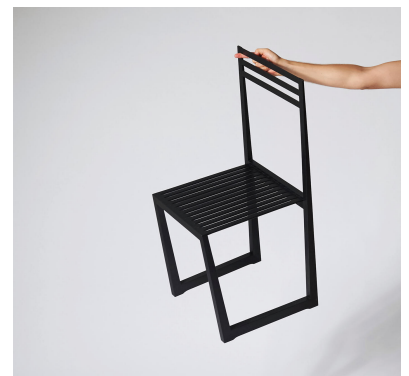

**Category:** chair

**Material:** ash wood

**Design:** Peter Otto Vosding in cooperation with Dirk Vosding

**Year:** 2017

**Client:** TBA

### Description:

„Was bleibt“ was the German working title of the chair Mμ. It can be translated with “**what remains**” and emphasizes the idea behind the project: what remains when we reduce the amount of material used to build a wooden chair to a minimum?

The result is this elegant, **lightweight and comfortable** chair.

The product was developed taking advantage of the **characteristics of natural ash wood**, we created an **elastic seating surface and backrest** that bend playfully and adapt to your body just in the moment when you take a seat and lean back. The sledge base supports this functionality. Since the lateral parts of the frame are now part of the sledge base and not at the height of the seating surface any more, the whole frame can bend slightly to allow the **flexible**, thin wooden strips that form the seating surface to adapt to the human body. Moreover the material thickness at the backrest tapers to a minimum and can bend from its vertical position to a comfortable ten to twelve degrees **tilted backrest**.

The plain, lightweight chair can be used for a variety of situations and is a perfect furniture for the dining room because of its **continuing comfort** throughout a long dinner.

### **About the studio:**

**VOSDING Industrial Design** is a German design studio based in **Cologne**. The founder Peter Otto Vosding was born in Wiesbaden in 1990. He studied Industrial Design in Darmstadt, Product Design and Process Development in Cologne and went to Ingvar Kamprad Design Centrum (IKDC), Lund University in Sweden for an exchange semester on a scholarship from the IKEA foundation. During his studies he did internships at squareone GmbH in Düsseldorf and at kaschkasch cologne. In 2017 he founded VOSDING Industrial Design and was selected as **German Design Award Newcomer Finalist**.

The studio now works for international clients in the fields of **furniture, lighting and consumer products**.
