

## Press kit: Sinn modular sideboard

### Product

**Name:** Sinn

**Category:** modular sideboard

**Material:** ash wood

**Design:** Peter Otto Vosding

**Year:** 2018

Looking for producer

### Description:

**Sideboard, room divider, organizer, your own little library...** Sinn is a modular furniture that can be used for many different occasions. Two main modules – a big and a small box – can be stacked and arranged in a variety of manners. Each box has four little feet and matching slots on the top to **stack them in a proper way**. Just put the feet into the slots of the boxes below and you get a pretty stable connection. If not needed, the slots can be closed with little slats.

The large boxes can be equipped with **sliding doors** to hide the less beautiful things you own. An upholstered board can be added to the sideboard to serve as a **seat for your coffee break** or to have a quick look into one of your books. The feet that extend into the lower boxes can be used as **integrated bookstands** in addition to their original function of giving stability.

Sinn can be arranged in a **loose, open setting** as well as in a **compact way**. Since the modules fit together in both directions, Sinn can be used as an eye-catching room divider with access to the boxes from either side.

## About the studio:

**VOSDING Industrial Design** is a German design studio based in **Cologne**. The founder Peter Otto Vosding was born in Wiesbaden in 1990. He studied Industrial Design in Darmstadt, Product Design and Process Development in Cologne and went to Ingvar Kamprad Design Centrum (IKDC), Lund University in Sweden for an exchange semester on a scholarship from the IKEA foundation. During his studies he did internships at squareone GmbH in Düsseldorf and at kaschkasch cologne. In 2017 he founded VOSDING Industrial Design and was selected as **German Design Award Newcomer Finalist**.

The studio now works for international clients in the fields of **furniture, lighting and consumer products**.
