

Press kit: Vollmond table light for Gantri

Product

Name: Vollmond

Category: table lamp

Material: 3D printed PLA + electronic components

Design: Peter Otto Vosding

Year: 2020

Client: Gantri

Description:

Bring the moonlight in with the **Vollmond Table Light**, designed by Cologne based VOSDING Industrial Design. Translating to “full moon” in German, founder Peter Otto Vosding drew inspiration from the unique silhouette cast by a **full moon rising over the German Alps**.

The Vollmond features a spherical disc attached to a crescent base. The exposed diffuser casts a warm glow in all directions when needed, while it's curved lines exude calmness - even when off. With three colors to choose from, the Vollmond is adaptable for a variety of interior styles.

Designed to bring a cozy ambiance, the Vollmond Table Light provides comforting light to your bedroom or an inviting glow to your living room.

About the studio:

VOSDING Industrial Design is a German design studio based in **Cologne**. The founder Peter Otto Vosding was born in Wiesbaden in 1990. He studied Industrial Design in Darmstadt, Product Design and Process Development in Cologne and went to Ingvar Kamprad Design Centrum (IKDC), Lund University in Sweden for an exchange semester on a scholarship from the IKEA foundation. During his studies he did internships at squareone GmbH in Düsseldorf and at kaschkasch cologne. In 2017 he founded VOSDING Industrial Design and was selected as **German Design Award Newcomer Finalist**.

The studio now works for international clients in the fields of **furniture, lighting and consumer products**.
